EMPOWERING OTHERS

*"Individually, we are one drop.
Together, we are an ocean."*

OUR VISION

Ameera London began with a visit to Morocco where we were reminded of the many natural resources and treasures Morocco bestowed upon its people.

A country of great beauty and an intriguing history, Morocco is barren in many parts, with its people exposed to harsh elements making it difficult for them to build a sustainable lifestyle.

An idea began to form of how we could draw upon the abundant natural ingredients in Morocco to create an organic beauty brand that enhanced peoples' beauty and improved the lives of others.

Ameera London works very closely with schools, charities, suppliers and co-operatives in Morocco to provide food, clothing and employment to help build and elevate its people.

OUR INGREDIENTS

Natural, ethically sourced ingredients

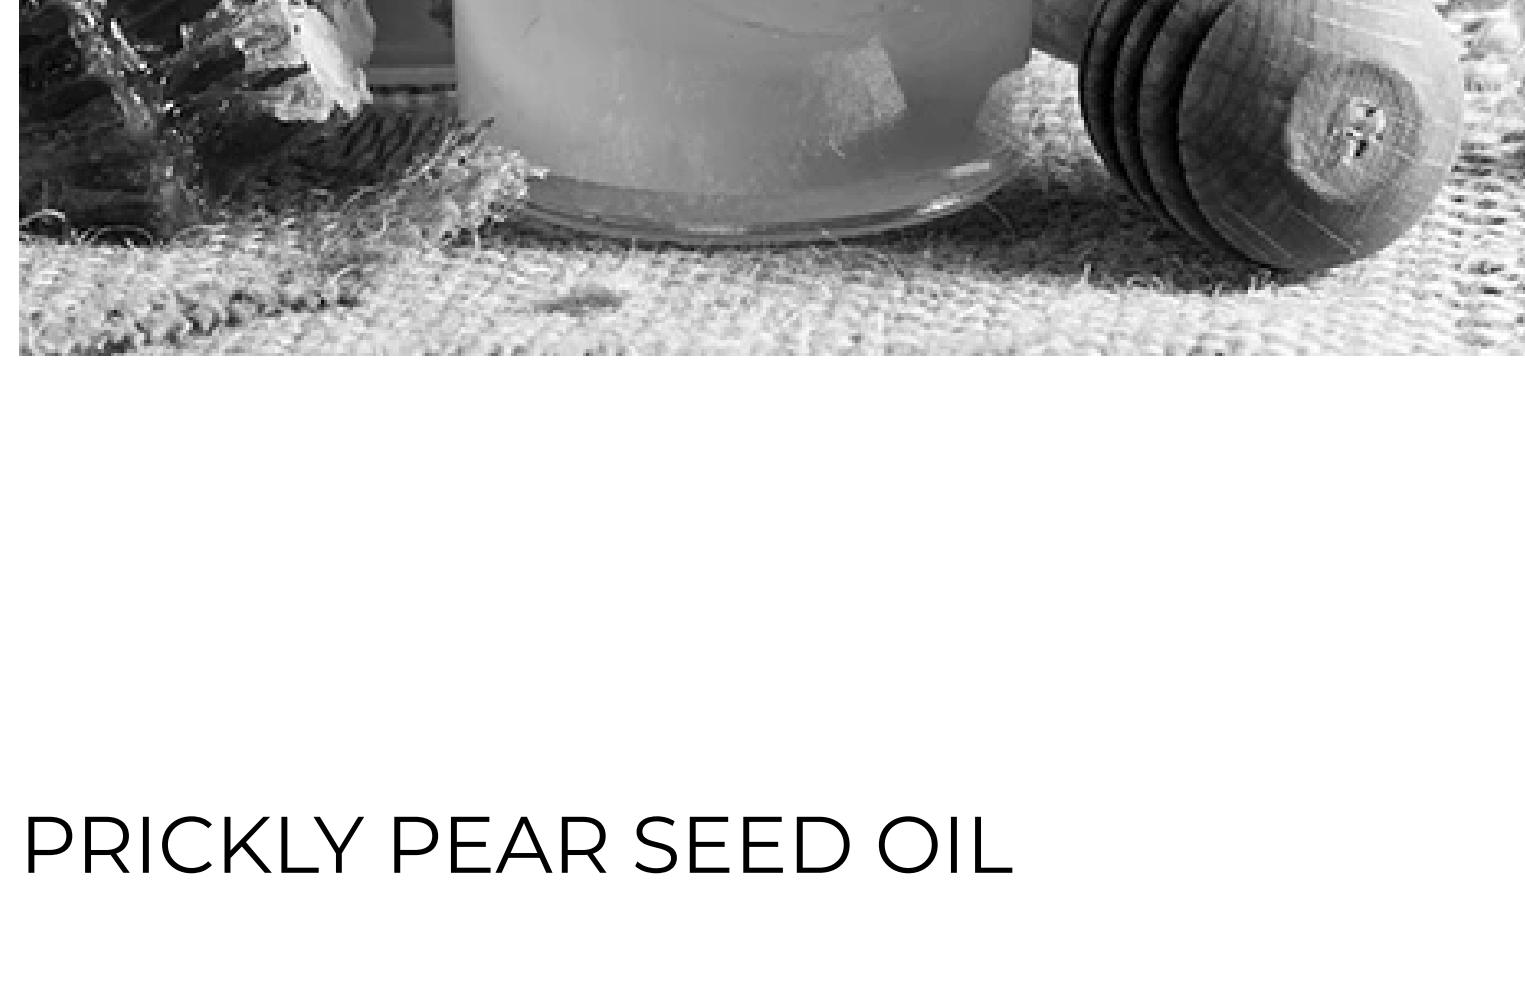

Our products are created drawing upon natural, ethically sourced ingredients bought from a trusted supplier in Morocco. We strive to ensure our products are organic, free of artificial fragrances, SLS or parabens.

**ARGAN OIL**

Argan Oil is an ancient beauty treatment derived from the Argania Spinosa tree that is endemic to Southern Morocco. Extremely beneficial for your skin Argan Oil contains omega-6 fatty acids and linoleic acid offering a profusion of anti-inflammatory anti-ageing, antioxidant and moisturising properties, and omega-9 unsaturated fatty acids and vitaminE which are both extremely high in antioxidants.

MOROCCAN GHASSOUL

Moroccan Ghassoul is an ancient beauty secret found in the lake beds of Morocco's Atlas Mountains, this rich mineral clay removes toxins from your skin and your hair. Ameera London's 100% pure Ghassoul contains high levels of Silica, Magnesium, Potassium and Calcium: these properties restore the balance of all skin types removing toxins by unblocking clogged pores, treating blemishes and improving your skin's elasticity.

PRICKLY PEAR SEED OIL

Prickly Pear Seed Oil is one of the most expensive beauty oils in the world. Its production requires a labour intensive and time consuming production of up to 4 days manually handled by Moroccan women in co-operatives. It contains high concentrations of Vitamin E and essential fatty acids. This oil contains more Tocopherol (molecules with strong antioxidant and free radical scavenging properties) than any other oil available in the beauty care market.
